software of the communication module might not meet current production specifications. This communication module is used to communicate the vehicle's location for the emergency call system (eCall), in addition to other convenience features. Beginning November 4, 2019, the date and time as determined by the communication module from the GPS satellite data would differ from the actual time and date. Due to this deviation, the determination of the vehicle position would be delayed or not possible at all. Thus, in case of an eCall activation, an inaccurate vehicle position might be sent to the Mercedes-Benz emergency call center and rescue units might not be correctly guided to the vehicle. If the vehicle's software is not successfully updated remotely via the Over-The-Air (OTA) remedy, an authorized Mercedes-Benz dealer will update the software of the communication module on the affected vehicles.

Beginning November 4, 2019, the date and time as determined by the communication module from the GPS satellite data would differ from the actual time and date. Due to this deviation, the determination of the vehicle position would be delayed or not possible at all. Thus, in case of an eCall activation, an inaccurate vehicle position might be sent to the Mercedes-Benz emergency call center and rescue units might not be correctly guided to the vehicle.

Remedy: If the vehicle's software is not successfully updated remotely via the Over-The-Air (OTA) remedy, an authorized Mercedes-Benz dealer will update the software of the communication module on the affected vehicles.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
