Built to Non U.S. Standards

Vehicle previously registered or titled outside of the U.S. and may not comply with U.S. safety and emissions standards.

Failed Emissions Inspection

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

Gross Polluter

A Gross Polluter is a vehicle that fails an emissions inspection with below-standard scores. These vehicles can pollute as much as 18 times more than a vehicle that passes an emissions inspection. It is illegal to drive or sell a gross polluting vehicle in California, and it cannot be registered with the DMV. CARFAX recommends checking the latest Vehicle Inspection Report to confirm the proper repairs have been completed before purchasing.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
